

ENVIRONMENTAL POLICY

Chelmer Group Ltd is committed to achieving the highest standards and pursuing the best environmental practices wherever possible. The Group recognises that this objective is an essential part of its current and future business.

It is the Policy and Objective of the company to:

- Compliance with all existing regulatory legislation applying to our industry
- Awareness of environmental trends in our industry.
- Ensure that, wherever possible, raw materials are provided from fully sustainable sources.
- Ensure that our employees are aware of the potential environmental impacts of their actions.
- Continuous review of business activities to ensure improvements in energy efficiency and resource usage within the groups operation
- Ensure that the utmost care is taken in the use and waste disposal of materials and chemicals used in our processes.
- Continue to improve our environmental performance wherever possible, including pollution prevention programmes and waste reduction.
- Operate an environmental management system which includes setting of specific objectives and targets to address any significant environmental impacts.
- Consider the commitment of our suppliers to their legal and environmental responsibilities.
- Work closely with customers, suppliers and other interested parties to encourage the ongoing reduction of the environmental impacts of our business.
- Review our activities annually to ensure continual improvement
